matters of this kind, declare that up to Friday it was the determination of the administration to avoid, if possible, the floating of a bond issue. If necessary, it was the plan to issue but small amounts for immediate needs.

Panama canal bonds, 3 per cents, to a comaratively large amount are in the Treasury unsold. They could be converted into cash and the proceeds used for immediate needs, with the sanction of Congress, but the amount probably would be inadequate in the event of extended military operations.

While monetary rates have been stiffening of late, there are still many hundreds of millions in the banks which would readily be available if the needs of the nation demanded. The syndicate back of the Russian \$50,000,000 credit loan now being floated has been greatly surprised at public demand for this loan, although the interest rate is far more tempting than would be necessary for the government to offer in this country.

Investors, according to the opinion of local bankers and bond men, would readily absorb a 3 per cents pow being better than par.

Satisfactory war news had a cheering induspoe on the stock market, but in the absence of support consols were marked down and several other gilt-edged securities suffered through surplus funds being utilized in the dearer money market. The firmest section was the industrial, where Marconis and Courtauds limited were prominently active. Fereign bonds, especially Russian, improved, but copper shares were weak with the metal.

ON MEXICAN SITUATION

Traders Become Excited Over Repor That Market Is Bare of Offerings. Material Gains All Around.

CHICAGO, June 19.-War moves rise in value. Considerable excitement was manifested at the opening of business when the fact became evident that the market was bare of offers, notwithstanding that aside from the Mexican situation heavy selling would have been generally expected.

Initial prices, which ranged from unchanged figures to 1½ higher, with July at 1.00% to 1.01% and September at 1.03 to 1.04%, were followed by a substantial general advance.

like advance, prices scored material gains all around. Early weakness in oats disappeared,

Early weakness in oats disappeared, in view of the strength of other grain. Net advances, however, were slight. Provisions were dominated at first by lower prices on hogs. Later, though, the Mexican situation and the rise in cereals led to a rally. In subsequent transactions the market took a decided upward swing, influenced by opinions that the United States government would be a liberal buyer of supplies for troops.

Wheat houses with seaboard connections were conspicuous buyers and

Closing Very Soft.

In the last hour the bears renewed their efforts to break the list, putting new pressure on the motors, Mexican shares and the entire list.

They were even more successful in the late attack than in the earlier efforts. The movement seemed to have more steam behind it, dislodging long stock and forcing brokers to call re
